ÎN EUROPA, LA FIECARE 30 DE

CARE AR FI PUTUT FI SALVAT,

# MOARE

SAU RĂMÂNE CU HANDICAP  
PERMANENT, NU NUMAI DIN  
CAUZA AVC PE CARE L-A  
SUFERIT, CI ȘI PENTRU CĂ A  
FOST TRATAT ÎNTR-UN SPITAL  
NEPOTRIVIT.

Inițiativa Angels schimbă acest lucru.

Misiunea este simplă: creșterea numărului de spitale pregătite pentru AVC și continuarea optimizării tratamentului standard în toate centrele de AVC existente. Aceasta înseamnă construirea unei comunități de centre pentru AVC și spitale pregătite pentru AVC și implementarea medicinei bazate de dovezi în practica clinică cotidiană.

Alăturați-vă nouă și împreună putem atinge obiectivele din Planul de acțiune pentru AVC în Europa: tratând cel puțin 90% dintre toți pacienții într-o unitate de AVC ca prim nivel de asistență și garantând accesul la tratamentele de recanalizare la 95% dintre pacienții eligibili.
